Dear Bridget

**Re:** Mosaic work on toilet block

I realise this is somewhat retrospective but the MDCA have asked me to formally thank you for the fabulous art work that now graces our public toilet block by the tennis courts in Mapua.

There was an absolutely huge amount of work that went into creating this mosaic. I well remember at the time, the many people who helped in the creation but it was your initiative and enthusiasm which drove the project. The result has been the most wonderful resource for the village.

It is not often that people take photographs of a toilet block but I have seen people doing just that! We thank you for your creativity, your time, initiative and not least, for your enthusiastic support of this community.

Kind Regards

Mary Garner
