

Mosaic project, toilet block nr tennis courts. – 4th wall workshops

Following received from Bridget following the letter of thanks sent by the MDCA.

Hello Mary

Thanks so much for your encouraging letter from the MDCA.

It would be good to spread the word that work has started on the 4th wall, which faces the tennis courts.

If anyone is keen to take part in these workshops (held in my garage at 12 Iwa street), they are welcome to get in touch with me.

Preferably, email contact is good - I have an address list of people who are keen to hear when the next workshops are scheduled.

My email address is bridgetpcastle@gmail.com

From the outset, this project has enjoyed great support from keen participants and also from our funders - Creative Communities Trust administered by TDC, as well as the Mapua and Districts Community Trust. I continue to receive donations of broken china (which can be dropped off in my letterbox), and it's great to have as many people involved as possible. No prior experience needed!!

I get a lot of personal satisfaction from the challenges of design development, sourcing materials, and coordinating all the people involved - and meet some really great people in the process!

My thanks again to the association - another group of committed, community-minded people!

*Warm regards
Bridget Castle=*
