Dear Councillors,

MAPUA BOAT RAMP FORUM GROUP MEETINGS

I am writing on behalf of the Mapua & District Community Association following our Association February meeting.

We are mindful that our public meeting endorsed an inclusive process naming a number of parties with stakeholder status. So far a preliminary terms of reference meeting WITH THIS GROUP has not been scheduled, but some individual group discussion has taken place. We ask where the agreed process is now sitting and what alternative ramp sites are included in the discussion. When is a terms of reference meeting happening.

The lack of forward momentum as well as the apparent informality of process so far is causing concern and some confusion in our community.

Graeme Stradling (for: MDCA)
