

Hi Graeme

I've been off work sick and then away on holiday in Fiji so sorry for the delay!

Below is our offer for to develop the Waterfront Park Activity Masterplan to determine the activity areas to be developed within the park - playground areas, entertainment areas, seating areas. We would also include the seat and table updated details for the park as discussed. As discussed further design development would be required in stage 2 for playground specific design.

Fee Estimate for Mapua Park Activity Masterplan
Stage 1 - Waterfront Activity Masterplan
hr) + GST and Disbursements

Let me know if the group is happy with this and we can make a start for you and get the table and seat detail together for pricing. Happy to discuss our offer if you have any questions. I think this price would cover the time required to develop this site further with the level of design input and attention required to further develop the site in a cohesive manner with the design integrity it needs to become a great space. If there are any savings to be made within this estimate we will pass them onto you. Meetings with the community group will be free of charge.

I have attached the updated activity scheme plan which outlines the spaces as we discussed on site from our last meeting.

Cheers Heidi
