

MDCA MEMBERS INPUT TO TDC MAPUA WATERFRONT PLAN – FEB 2017

*Please record your own comments/ suggestions on the named aspect for this sheet or tick another comment that you support. **All input** will be collated & relayed to TDC*

TOPIC 2 – WATERFRONT PARK

See green reserve area on map- includes whole park area except for [pink] corner zoned commercial

Topic 2 Waterfront Park

Picnic tables x 2

rubbish bins/ recycle bins x3

Children's area x 4

Chess set

BBQs x2

Shelter from sun and wind but keep eyeline to the sea

Trees and shrubs

Don't lose the Rata \$10000 grant

Learn from Australia in terms of seaside facilities.

Parking to stay just for Waterfront Park

If boat ramp goes alongside must be fenced for safety in park 5 metres wide and turning loop

Ticket system

Family friendly important . No dogs

Parking in vicinity of park

Minimum footprint for boat ramp x 2

Have a narrow strip that excludes cars turning at the end e.g. a trolley on rails which is loaded up on Tahī St that takes the boats to the water

All parking in remediated land

Rezone commercial corner to reserve x 3

Stop vehicle access to end of Aranui Rd x2

Waterfront Park is best option for boat ramp

Short term parking (20 mins max) at end of Aranui Rd

Why is there an amphitheatre if not used- encourage use

Why Buskers festival in commercial area not park

Only used for carols

Hard wood tops on seating

Boat ramp options really debatable

Concern it is dissecting park

Develop as originally planned

Better public transport to/from Mapua so less cars

Whole park to be maintained and playground and barbecues and shelter walls to be installed without delay. No more car parking or trailer parking on this land.

FACEBOOK FEEDBACK

Why are there no trees on water front park & what about the children? No playground....we won't be back until that is sorted!!!

Waterfront park needs developing as planned with picnic and play areas, shelter from wind and sun.

Get back to community minded decisions that include the children of Mapua!

A band rotunda where musicians can play. Overhead sails or shade cover for outside dinners. Future buildings, building products and renovations should also be styled complimentary of boat shed or marine theme

Mapua needs an upgraded playground (the one at the skatepark has fewer features thru degradation than it did when my children played on it nearly 20 years ago). Would like to keep one in the current spot, but also have a larger play structure in the waterfront park. This would draw more usage of the park, as currently the only climbing structure at the wharf is the beloved tree in the inset map.

it needs a play ground for children and a mini golf course.

It's not the local people that don't know what they want it's all the bloody imports that want to make Mapua like the place they left in that case go back to where you come from and leave the village alone you came to Mapua because you like the way it was not to change it

It would be great to carry out the following enhancements:

- More picnic tables (a small number)
- Trees for shade
- A playground

in and amongst the main green space.

It is our want that his area stays green and is not developed for more parking or for a boat ramp. The area is a high density area with locals and tourists of all ages and as such is not suitable for boats, trailers etc as we believe it has future high potential to be used recreationally if we were to implement the above enhancements.
