TO WHOM IT MAY CONCERN

Mapua Water Front Park

Tasman District Council would like to endorse the Mapua and District Community Association's application for funding, for picnic tables and Barbecue Facilities at the Waterfront Park Mapua.

The Association are a very dedicated and well organised group who through consultation with the wider community have developed plans to enhance the park. The process has also been a close collaboration with Tasman District council and is in keeping with our objectives for the Park.

If the Association is successful with its funding, TDC has made a commitment to install the picnic tables and BBQ, add them to our asset register and incorporate them into our servicing contracts

Tasman District Council has made a promise to support the project, providing technical assistance, guidance and resources when needed.

If you require further information please do not hesitate to contact me.

Yours sincerely
Richard Hilton
