Dear Richard,

I am writing to pass on to you a recent Community Association resolution "expressing the strong opposition and objection to the erection of the fence structure at the boundary of Council and Yelverton commercial sites at Mapua Wharf. The planned structure is seen as divisive and out of character with Council/community partnerships and good neighbour attitudes" and we feel it is abhorrent to reasonable development of more friendly relationships between business and public on the Mapua Wharf.

We would appreciate a response to this letter before our June 13th meeting.

yours sincerely

Graeme Stradling

MDCA secretary
