Re: Grant from TDC Community Fund.

We write to thank the TDC for the grant from your Community Fund. This has allowed the MDCA to fund our increased expenses in relation to communicating with members especially via social media.

Our Social Media Manager, Tim Hawthorne is kept extremely busy promoting MDCA and keeping the community informed of our activities. Some of his recent activities include:

- SEO work on the MDCS website being completed
- A typical number of Facebook "views" being 1500 regarding our recent AED training evening.
- Continual updating of the website.
- A recent competition to design a logo for the MDCA. (Winning design as per this letterhead).
- Adding a search function to our website which encourages people to visit.

All of this activity takes time and expense and we are grateful to the TDC for their support of our Association.
