Dear Chris

Re: Donation of meat for the MDCA Ruby Bay community barbecue on Sunday 25th March.

The Mapua Districts and Community Association have asked me to write to say thank you so very much for your very kind and generous donation of meat for our community barbecue held last Sunday.

We ran this event to support all the residents in Ruby Bay who had been affected by the cyclone Fehi floods. As you will be aware, those floods had a devastating impact on many residents, particularly those living in Tait St and Broadsea Ave.

The barbecue was a huge success. It was wonderful to see a big turnout of residents and to see them all relaxing and chatting with each other and having some time out from the stresses of the aftermath of this dreadful flooding event.

All of our business donors were acknowledged on the day and will also be mentioned on our website and Facebook page. The Facebook page has 785 follows so this will be a reasonably visible acknowledgement to those like you who allowed us to run the event for our community.

Thank you and your team so much, for contributing to this event. We are extremely grateful.

Kind Regards

Mary Garner
Secretary
