Subject: Designating shared footpaths
Date: Wednesday, June 27, 2018 10:18:02 AM

Hi Steve,

I know I have thanked you for your stewardship in shepherding the Higgs Road footpath and the Mapua School refuge crossing through to completion. The Community is very grateful for these projects being completed and they certainly have improved both entrances to Mapua. I continue to get thanks from people about the Higgs Rd footpath.

With regards to footpaths there is conflict within the community about who should have access to footpaths. The conflict is over perceived "shared pathways" with the diehard pedestrians crying foul over cyclists on THEIR paths and cyclists who want to be safe by riding on footpaths where there is danger from vehicular traffic.

-> Does the TDC have rules about who can use footpaths?
Are all designated "shared pathways" signposted and if so how?

Hope you can help
Regards
Wayne Chisnall
