Subject: Fwd: Documentary movie "Edible Paradise" screening 20th July in Motueka
Date: Thursday, July 5, 2018 9:37:32 PM
Attachments: [Edible Paradise poster.pdf](#)

Greens Motueka has planned 'Local Matters', a programme of community events for the remainder of 2018.

Our purpose is to focus on topics relevant to the sustainability of our community (with various speakers and movies) and to engage with the community in discussion and sharing of ideas.

We are very excited to share with you our next event and hope that you will be able to share it within the Mapua & Districts Community Association network.

Friday 20th July : Edible Paradise - a powerful N.Z. film (2018)

<https://www.youtube.com/watch?v=Y9wZuKLWb1s>

This is another inspirational new New Zealand film '**Edible Paradise**' that looks at community food resilience initiatives throughout the country.

It explores a return to the commons – public plantings of heritage fruit & nut trees, food forest projects, long-term and multi-generational solutions for our food production and the social benefits of community food development.

Robina McCurdy, the film's co-producer/director (and founder of The Localising Food Project), will introduce the film and answer any questions that arise.

When: 7:30 p.m., Friday 20th July, 2018

Where: Imagine Theatre, [1 Woodland Ave, Motueka](#) (between New World's small carpark and Thorp Bush)

Cost: \$10 cash (includes supper)

Tickets: Door sales from 7pm

Other events planned are:

- **A Billion Trees? Local Projects Targeting Carbon Zero**
- **Chloe Swarbrick, NZ's Youngest Ever MP**
- **Dr Mike Joy, Freshwater Scientist and Campaigner**
- **Industrial Hemp - Steve Burnett, Motueka**

We would really appreciate if you would share this information with your group.

We are on Facebook too - **Greens Motueka** - to like the event and share.

Attached is a poster of the film.

With many thanks,

Greens Motueka Event Committee
