Tena koutou

My name is Anna Brewer and I teach in the year 5/6 syndicate at Mapua School. This term we are undertaking a volunteering project somewhere in our community based on the Student Volunteer Army (SVA) model started in Christchurch post earthquake. We will be having an action day where we get out in the community later in the term (date to be confirmed depending on project). There are 3 classes in total who will be completing this project but depending on the project we will do it in separate classes 26-28 kids each.

Currently, we are in the phase of doing some research about the SVA and shortly will be thinking about who we can help in our own community. As part of this students will email groups in our community to gather ideas about what help is needed out there prior to choosing a project that appeals to them.

This email is a heads up that you will be receiving several emails this week from students from the syndicate asking for ideas you may have about who/how we can help in our community. I would be very grateful if you could respond to these and even more so if you had any wonderful ideas.

I appreciate your help in this!

Nga mihi nui
