Firstly the Aquarium art.
Sarah has advised as below

The art council have made some clay animals to replace the damaged pieces. We are waiting for those to be fired and they will need glazing and re-firing. The art council are planning out designs for the back of the frame for mosaic tiling. We have enlisted Mike Walters to assist us. It's a slow process sorry and school life is very busy.

The Mounds.

Both Richard Hilton from TDC and mapua Landscapes are ready to go. I have advised Richard that a meeting with MWWG is on the agenda so there's still a hold up as far as I know.
Mapua Landscapes have said they will keep in touch with Richard Hilton.
