Hi again,

I followed up with Graham Rimmer, TDC on the Upper Moutere path. His reply is part of this email chain. I thought you might be interested as you attend the UM meetings. I will include a reference to it in my report to Bruno.

Good Morning

We are currently ensuring we can get land from both sides of the road.

Our preference is to have minimal crossing across the road. If we **can not** get all the owners to approve to sell their land on one side, then we will build the path on the other.

All owners are willing on the pub side.

Therefore we are looking to see if the owners on the dairy side are willing to sell. Which is our preferred side (no crossings). We just have one owner to go which am seeing today.

I can't see this path being constructed to end of the year or early next year. Once we have willing landowners to sell their land then we will get our property people to get the process in motion.

Hope this make sense

Kind Regards

Graham.

Many thanks for getting back to me on that Graham.

Are you able to also advise on the status of the #1 pathway project, Upper Moutere Village to the Moutere Community Centre pathway? MDCA has links to the UM Community Group and I get asked about this project.

Regards

Wayne

Hi Wayne

Downer have indicated that the works will not commence till September once the winter is over.

Cheers

Graham

Hi Mike,

Can you advise me of the start date for the Mapua Drive pathway extension work being carried out by Downers? It was going to be sometime in July.

Cheers

Wayne

Thanks for that Graham.

I know that the council owns all but the Varcoe corner but one of the landowners has planted right out to the edge and was upset she was going to lose some of those trees. I put her in touch with Jamie last year.

I have one more favour to ask- is it possible to send the one page plan as a png file instead of the PDF? Apparently our Facebook page won't accept PDF files for some reason.

Regards

Wayne

Hi Wayne

Answers to your questions:

Yes downers will be the contractor

The speed sign will change to 50km at its current location

All land is TDC owned where the bank is to be removed except for a purchase we are making for the Vercues property.

Hope this answers your questions

Regards

Graham

Thanks Graham,

Are Downers the contractor for this project?

I notice that the plan shows a relocation of the speed change sign as being 50 km/hr whereas it is currently 60. Is that actually happening as a consequence of the speed limit work done last year? If so I presume the 50 zone will prevail on through Stafford Drive?

Another question relates to the batter of the bank and how this might affect the landowners above- have you agreed with them to replant the top of the batter? If this is done as "maintenance" maybe Richard Hilton is the man to ask?

I note you are the Project Manager so if any questions come back to me from the community I will contact you.

Thanks again

Regards

Hi Jamie

The land will be purchased in the next two weeks, but Downer have indicated a delay to the project until July.

Cheers

Graham

Hi Wayne

Yes things are pretty busy. Hope all is well with you

This path is close to construction, we are just working through a small land purchase which hopefully won't take too long.

Mike or Graham might have more detail to add regarding probable timing.

Cheers

Jamie

Hi Jamie,

I trust you are well and not overburdened as a consequence of the pandemic?

I know that a number of projects are back onstream and just wondered where the Mapua Drive- Mamaku Drive pathway was at? Is it "shovel ready"

Regards
