Dear Mark and Jamie

Re: Bollards at Mapua Wharf

The MDCA have asked me to write to ask if the bollards at Mapua Wharf might be repaired again. We understand that they have been repaired once but they are again broken.

We further understand that these bollards are maintained by a company in Auckland. Is there any reason why a local company cannot maintain them?

Kind Regards

Dear Janet

Re: Sculpture Higgs Rd Roundabout

We understand there are plans to perhaps install a sculpture on the Higgs Rd Roundabout.

The MDCA passed a motion at the December meeting in support of conceptual and explorative ideas for such a sculpture. We think sculpture is an excellent idea and we look forward to being as accommodating as possible as the project develops.

As you know, Marion Satherley is on our Executive so we will be pleased to hear of progress reports from time to time.

Kind Regards
