STATEMENT OF INTENT RE MAPUA WHARF PROJECT

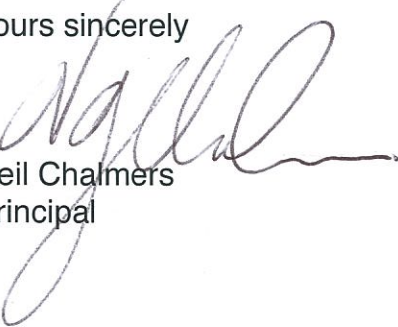

Regarding the remaining \$491.01 from the wharf project funds, it is the Mapua School's Arts Council's intention to follow up on the wharf frames and fix the damage that was done to them over the Christmas period. Some ceramic pieces were removed or merely just chipped off mostly due to passers by climbing on the frames (we assume).

As the school councils have not got up and running, there has been no developments with this wharf restoration intention however, Mike Walters is keen to work alongside us to create a mosaic backing piece and to use a local mosaic artist to help us too.

We will undertake this project when the councils begin this week and this should give us a clearer picture of what we can achieve and how long it will take.

The left over funds will likely go towards materials to make the mosaic pieces.

Yours sincerely

Neil Chalmers
