Hi Helen

Yes, I'd be happy to do a presentation about TET, what we do and what we have planned. I'm sure we can make September work – plenty of time to plan around that!

Kind regards
Sky

Dear Sky,
I write on behalf of the Mapua and District Community Association to ask if it would be

possible for the Tasman Environmental Trust to be our Hotspot presentation at one of our meetings.

We try to have a topic of interest at our regular monthly meetings to start the meetings off. The presentations can be no longer than 30 minutes and are a great way to inform the community of happenings/ organizations/ or other useful information that they may or may not already know about.

The month of choice for us would be September but of course we would fit in with you if you are willing. We meet on the second Monday of each month at 7pm in the Mapua Hall.

I look forward to your reply
