co-housing

We warmly invite all at Mapua&Districts Community Ass. to our next Motueka Greens' Local Matters event and would really appreciate if you could distribute this notice to your network.

Our next event is on Wednesday, 26 June with a panel discussion on co-housing, at the Mapua Hall.

Co-housing, a growing movement in N.Z. and many other countries, is an exciting way forward with sustainable, affordable and community focused housing.

Keynote speaker is **Thomas Nash**, Social Entrepreneur in Residence at Massey University. Thomas is well known for his 2017 Nobel Peace Prize and now also for his strong advocacy work around social change and alternative solutions to the current housing crisis.

Other panelists are **Jace Hobbs**, who is involved with the Nelson co-housing project, **Ian McComb** whose interests and business are facilitating housing choice, particularly small and tiny house options, and Tasman District councillor, **Dana Wensley**.

When: Wednesday 26 June, 2019, 7:30 p.m.

Where: Mapua Community Hall, Aranui Rd, Mapua (adjacent to the NPD service station).

Panelists: Thomas Nash, Jace Hobbs, Ian McComb, Dana Wensley

Entry: \$10 includes supper. Free to students with ID.

Best regards,

Diane Sutherland, Petra Dekker and Heather Spence

Local Matters Committee, Motueka Greens
