

Community Wellbeing Survey -Mapua & Districts July 2019

Introduction

With much gratitude to the 327 respondents for providing this data for the survey results .That is 20% of the total distributed and an awesome result.

Points of interest:

- ✓ Twice as many female respondents as male
- ✓ 22% paper responses. Of the 29 respondents in the 80+ age range, 24 replied using the paper version
- ✓ Private car was the main means of transport for 92% with many noting that this would change if a community/public transport system were available
- ✓ 159 of the 327 noted email as their preferred means of communication, with the second choice (47) being on-line/social media
- ✓ This is a full summary of results except for deleting single responses in Tables 1e;2;3a;3b;4a
- ✓ A much briefer version will be published online and in paper version for general use and interest
- ✓ This data will inspire and inform future working groups on priorities and strategies for developing systems; services and agencies to enhance the wellbeing of all residents in Mapua and Districts – **THANKYOU!!**
