Hi Desiree,

In reply to your inquiry regarding seats built by Menzshed Motueka and supplied to TDC, I have attached some photo's of seats that we have done recently.

The picnic tables and the seat with arm rests are 1.5 metres long, material is planer grade P/radiata and cost around \$450 depending on the grade of timber.

The bench seats pictured in High St Motueka were refurbished/rebuilt using various native woods and some Redwood/Macrocarpa, so the cost varies according to the availability of the wood.

At the present time we do have a lot of work projects on the go and would not be able to assist you until after December.

Kind Regards

Hugh Booker

Chairman

Menzshed Motueka
