Hello,

I've purchased a Acer Aspire 3 Athlon laptop today from Harvey Norman.

Purchase price	\$745.00
Norton's Premium	\$80.00
Office 365	\$99.00
Tech Support	\$49.00
Mouse (wireless)	\$24.00
Case (soft)	\$0.00
	\$997.00

It was going to be another \$100 for HN to set computer up, so I opted for us to load it, but have option of their tech support if needed. Apparently they can remotely access the laptop and correct any errors, just have to ring HN quoting invoice # 47/1253246.

I've also gone with a year's subscription to Office 365 for next 4 years, @\$99.00 PA, which includes any updates etc.

Norton's is a good software antivirus and its \$80.00 PA.

Marion/Desiree, I'm pretty busy at the moment and ask if you could find someone to load Office, Norton's plus set up our email address etc ?  
I've have the laptop etc, and can drop of to anyone in village.

Lastly, I've attached copy of invoice for payment etc etc.

Cheers

Mike K
