

Hello households, the following is a report from Grant Heney, our Community constable

Hi All

Last Wednesday [Nov 13th] there was a very suspicious car and occupants seen at Stephens bay near Kaiteriteri. 2 young males were seen in an older maroon 4 door saloon car. The paint was faded and patchy and they were looking in at every house as they slowly drove past. Please keep an eye out for this car and call police if you see it or its occupants acting strangely.

At this time of year we are starting to have a lot of new people come into our district so it is time to start making sure your personal security and safety is up to scratch. Locking your car, shed and house is a must.

With hotter weather coming we will all want to be leaving windows open to keep things cooler. Make sure you have latches on windows you leave open. Every year there are thefts or burglaries caused by people leaving insecure windows open. The latches are inexpensive and can be bought for wooden and metal framed windows from local hardware stores.

Dont be the next victim

Take care out there

Light blue E-bike stolen from McGlashen Street, model ONE GF2, has a carrier on back and black basket on front.
