

20<sup>th</sup> November 2019

To whom it concerns,

The Mapua & Districts Community Association (MDCA) are aware the Mapua Hall Society wish to acquire funds to install a audio and visual projection system for the main hall area.

Like many other community groups and organisations, MDCA are regular users of Mapua Hall and are frequent users of the easy to use projection system in the Bill Marris room.

However, the Bill Marris room has number limitations and it would be a huge asset for the community for a similar system to be installed in the main hall where the potential attendance capacity is much larger.

MDCA whole heartedly support the efforts of the Mapua Hall Society in their fund raising efforts, and with all the improvement endeavours they undertake (on a voluntary basis) to attract a wider variety of interest groups as a result of providing the use of audio/visual tools to address a larger audience in a more informative and meaningful manner.

I am happy to be available to answer further questions or provide additional information should the need arise. You can email me at [info@ourmapua.org](mailto:info@ourmapua.org)

Kind Regards

Marion Satherley

MDCA Chair
