Good morning Jeremy & Jamie,

At last night's MDCA Executive meeting we discussed how we wish to approach informing the Mapua community with regard to the current Indicative Road Network and to get them to start thinking about best possible future outcomes for our community.

As a result, we would request you and other relevant TDC members attend our public meeting on the **14th September meeting, 7pm in the Mapua Hall** as guest speakers to give a presentation on the upcoming TRMP community consultation so as to highlight the purpose of the TRMP; how future development is guided by the TRMP; the current indicative road and pathway network in and around Mapua, how changes to this plan can be made; the value of community input; how to create a community that meets the future transport, recreational, educational, and other lifestyle needs to enable a safe and healthy community.

We are also interested to learn how the information gathered as a result of Nelson Tasman Future Development Strategy consultation feeds into the TRMP.

I would appreciate it if you can confirm your availability to give this presentation on the 14th September no later than 10th August.

Kind Regards

Marion Satherley

MDCA Chair
