

## Social Media Report for August 2020

Last Month ZOOM co-meeting didn't work that well because we had considerable feedback problems and then there was that one second delay in what was spoken here, being sent off to the USA and then back again via ZOOM giving a very annoying 1 second echo. Spent half a day in the Bill Marris Room with all the computer gear we use to try to rectify some of the problems. Made a stand to more securely hold the camera during presentations.

Our Mapua page has now been set-up on a trial basis. Any comments are welcome to [info@ourmapua.org](mailto:info@ourmapua.org). If approved at the Exec meeting we will begin to populate it after next month's general meeting.

Facebook "job" page that advertised for a Coordinator for Mapua Willing Wheels (see Wellbeing report) attracted some very good applicants. Post of new coordinator and information on the start of the project coming soon.

Police report – The police report specifically says that this is not to go on a social media page. Checked whether this includes our web page under "correspondence". No reply as yet.

Facebook engagements:

Recollections of early residents in Mapua and districts MDCA project = 704 engagements

Posting on dog restraint sign around Mapua Domain = 299 engagements

Thank you to Dominion Flats working bee volunteers = 119 engagements

Numbers will be updated at the meeting.

Bruno

Social Media Coordinator.
