Good afternoon Marion,

I'm organising a series of informational outreach events on behalf of Tasman District Council to introduce the Tasman Environment Plan development process and hear from our communities about the resource management issues that matter to them. The Tasman Environment Plan will provide a blueprint for how and where our communities will grow and how we manage our natural resources. It will combine the Tasman Resource Management Plan and the Tasman Regional Policy Statement so is a big task.

Our preferred event format would be to hold an informal pop-up space where TDC staff can engage with the public and gather local knowledge on issues and aspirations on the key themes which will be addressed in the plan. The themes range from our coast, to our towns and local centres, to freshwater, biodiversity, rural areas and more.

Acknowledging your role in the Mapua community and its surrounds, we were hoping to coincide our event with your November Residents Association meeting to encourage higher attendance for us to learn from a wider range of voices. If you think the venue you are using for your meeting would be suitable to host our drop-in community event, we could set up a few hours before your meeting to allow for both the public and association members to attend.

If you think it would be valuable and you have space in your agenda, we could ask our TDC staff to prepare a short presentation on the Tasman Environment Plan process and how people can be involved to be delivered at your meeting

If you have any suggestions, questions or concerns, please do not hesitate to contact me at this email address or the phone number below.

Kind regards,
Stef Naldi
