Kia ora koutou, thanks so much to everyone who has responded to our discussion document, attended our stakeholder meetings and RSVP'd to our workshops, we've had some amazing responses so far, so let's keep up the momentum! This is your chance to be involved and lend us your knowledge so that we can make an informed and effective Tasman BioStrategy. Our

workshops are targeted at anyone with an interest in biodiversity, from specialist conservation groups to general public, this is your chance to engage with the strategy in a public space.

You can also engage with our process from the comfort of your own home. Simply download the discussion document and answer the questions at the back either from the document, or by clicking the link in this email. Easy as! There is a prize for the best submission! judged and donated by our facilitator Peter Lawless.
