Hi everyone,

As a previous submitter on the Future Development Strategy, you may find this project of interest ...

The population of Richmond has been growing steadily and is expected to keep growing for many years.

There are only two options to handle future growth in Richmond – expand outwards or increase density within the existing urban area. Realistically we need to do both - make better use of the urban areas we already have, and then extend urban areas where appropriate.

We want your help to get future housing options right. We need people that live, work, play and relax, in and around Richmond, to help us plan for a better future for everyone.

You can do the Richmond future housing options survey here: <https://shape.tasman.govt.nz/central-richmond>

This survey will be open until Sunday 23 April 2023. Please make sure you go online and complete it.

Also, please forward this to anyone you know who lives in Richmond, or who has a connection to Richmond and may be interested.

Nga mihi nui, and kind regards,

Jeremy

Jeremy Butler
