

**Re: Upcoming talk to MDCA in November**From **Paul McIntosh** Date **Tue 18:44**

---

Alistair,

Happy for you to speak about what you think are the most relevant parts of your work.

Residents in Mapua have interest in coastal erosion, using natural or augmented wetlands to help with stormwater management, and the ongoing issue of forestry slash washup on local beaches.

I look forward to seeing you next month.

Best regards,  
Paul McIntosh  
MDCA Chair.

Kia ora Paul,

It was nice to meet you recently at the Motueka Catchment Collective workshop.

I recall you mentioning some points that you thought it would be important to cover in my talk to the MDCA in November – but unfortunately I can't recall the specifics!

Please, could you remind me of your suggestions about what would be useful in the talk?

Many thanks,

Ngā mihi nui,

Alastair
