

## **Scanning of historically MDCA documents.**

This job has been completed and is now on an external hard-drive ready to be uploaded to the website.

There are a number of missing minutes which are as follows:-

1999 AGM  
2001 May-Dec and AGM  
2002 Full year and AGM  
2003 Feb-Apr  
2004 September  
2005 May  
2009 July  
2011 AGM  
2012 June  
2013 July, Sept-Dec, AGM  
2014 Full year and AGM  
2015 Feb-July, September

Perhaps it's worth asking current and former Exe members if by chance they have copies?

Scans have been saved into 2 folders, one of all meetings and the other correspondence. In relation to correspondence, this includes are sub-committees and special projects or important issues in the community i.e. FCC/Waterfront Park, Seawall etc. In scanning they were covered in correspondence and also in separate folders – it would have just too much involved to separate all out the documents to make separate folders. They should still be able to be searched easily though or someone might like to take the next step if it's decided it's worth doing and search and create separate dropdowns.

There is one USB that has a lot of photos of work at Dominion Flat that I feel should be sorted through and a selection placed on the website as they tell a great photographic story of the progress of that project.
