

**Rabbits on the Māpua Domain**From **Bridget Castle** Date **10/01/2026 12:13**

Hi team

This email concerns the growing rabbit population on the Māpua Domain.

As a regular user of the Māpua Hall, I am aware of the growing rabbit population on the Māpua Domain.

I believe they are nesting under the hall. I live in Iwa street and am increasingly aware of rabbits in the gardens of our road.

I believe that this issue is going to get increasingly problematic as we all know how quickly rabbit populations multiply. What can be done to address this?

Thanks

Bridget Castle
