Subject: Follow-up discussion with your community

Kia ora,

Thank you once again for making the time to take part in the Community Outcomes workshops we held during August and September.

The discussions were valuable from our side, and I hope those who took part found it worthwhile as well. The local perspective you brought to the table is important as Council continues to understand priorities across the district.

I'd like to come back in person over the coming month or two to share what we heard, talk through the emerging themes, and continue the discussion to support development of the 10-year plan.

I anticipate continuing with the informal workshop-style format, as this worked well in the first round. This follow-up session would be with the association and any wider community members or groups that should be included to help ensure a good range of local voices are represented.

Please let me know when would be a suitable time to host this follow-up discussion and what support you would require to promote it?

Thanks again for your time and ongoing contribution.

Victoria
